OSCARStone
For Marble & Natural Stone

OSCARStone
For Marble & Natural Stone

Who we are...

OS is a natural stone processor/supplier, we supply wide selection of quality marble & granite of all colors & textures to markets wholesalers & distributors as well as contractors, in projects which natural stones are used, we are based in Egypt, we get the blocks from Egypt, Turkiye, Greece, Italy & India we have our own stockyard however we work hand in hand our partners in many regions and integrate the process, coordinate logistics and deliver perfect material to you, with quarries, factories, traders. We deliver our product either in blocks, slabs, tiles or cut to size products such as countertops, cabinetry, sinks, ...etc.

With rich collection of Colors & Textures of Marble and Natural stone from around 5 countries, we supply for all tastes, designs & uses.

When it comes to taste in stone design things can be crucial and most designers restrict their creativity based on available materials in the market and picking the right material for your design is limited with price, uses of space & color texture that match; however, we source our marble from over 10+ quarries in 5 countries which ensures that you're no longer limited to such factors, eventually we can deliver the type of material you're looking for.

What We Do?

We simply source the best stone material with the help of experienced geologists that ensure the quality of the blocks and homogeneity of the color and veins, we test the samples and release specs report then send the blocks to the production facility to be produced and finished based on our client's order; using cutting edge italian technology like Pedrini, Tenax, EMA, Bunk machinery we process our well selected blocks to be cut and trimmed and finished whether in slabs, tiles, stairs, countertops, cabinetry, sinks, ...etc; then packed in crates or wooden boxes after that we coordinate the logistical activities of custom clearance and freight forwarding.

Stone material specification compliance.

Quality assurance of epoxy & other production additives.

Production supervision, time tracking & quality control.

Surfaces texture finishing.

Overall Evaluation of final product.

Logistics management & Speedy Delivery.

Quarrying Stone

Sourcing the best material from best Quarries, Checking quality, color & texture of stone.

Manufacturing

Sending our stone blocks to manufacturing facility for producing cutting, trimming and finishing as desired

Delivering

Coordinating logistics and managing supply chain activities.

Our process is fully integrated and completely coordinated along all stages from quarry to port and strictly time framed.

OSCARStone
For Marble & Natural Stone

Our Facilities

Our integrated team of mining & production specialists pick the best grades of natural stone with less natural cracks, less foreign beds and better texture using the latest cutting-edge Italian mining & production technology Benetti Macchine, Pedrini, Tenax, Ema, Bunk; With variety of over 200 types of natural stone extracted from 60+ selected quarries in Egypt, Turkey, Greece & Italy, Our material is quality processed in our factory, which can process 1.8 million square meters per year and exports to more than 20 countries.

Our collection of Granite

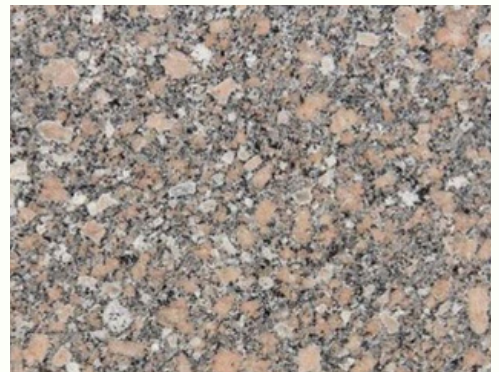

Granite is considered one of the hardest decorative stones with the highest strength, durable and resistant to damage that it's sometimes used as a structural element itself; Granite gives the gritty look of stone, it's anti-scratch, stain resistant, stand fire & extremely high temperatures, inalterable colors that last overtime. The polished granite is used in interior claddings, countertops, stairs, wet areas kitchens & bathrooms & tables. However, unpolished rough surfaces popular in exterior cladding, outdoor flooring & landscapes. Granite is the most economic & affordable yet most functional material in the natural stone markets.
